

## For America

We do endure, restore, stand up, go forth  
We are refreshed, rejuvenated, reaching for more  
We help each other, get up, when the wind blows us down  
We are the people we need, while leadership's out of town

We got this far by having a common tone  
We love our land, from up North to the hurricane zone  
We breath the life back into the promised land  
We are the people we need, we are the helping hand

For America –  
For America –  
For America (listen to freedom ring)–  
For America (come together and sing)  
For America - (overcoming peril and strife)  
For America – (this is the life)

We.....(sustained and obligado'd by pat)  
We, are the people we need  
We, are the people we need  
We, are the people we need  
We, are the people we need

(Hold pedal tone...)  
*I'll be there for you, and you'll be there for me*

We carry more than our share at a critical time  
We want to help and remember it is everyone's dime  
We see the breaks in the system and will find an answer  
We are the people we need, and we can deliver

We see the world is our home and will keep it maintained  
We are the shelter from the Arctic to the Northwest rain  
We come together, perservere, overcome and exceed  
We are the people we need, we are the people we need

America –  
America –

(Instrumental zone)

America –

For America –

For America (listen to freedom ring)–

For America (come together and sing)

For America - (overcoming peril and strife)

For America – (this is the life)

For America – (listen to me sing it again)

For America – (we are as strong as the wind)

For America (listen to freedom ring)–

For America (come together and sing)

For America - (overcoming peril and strife)

For America – (this is the life)

(Obligado phrases to incorporate at end of song, while still singing For America!)

For all the victims, we will remember

For you survivors, we will remember

For our strong soldiers, we will remember

For our forefathers, we will remember

For all the natives, we will remember

For all the slaves, we will remember

For all the graves, we will remember

For all our children, we will remember

For one another, we will remember
