

No War, No More

(In F)

One more lap.....

Roll with me, run with me, by my side,
it seems my arms and legs have liquefied
Roll with me, run with me, by my side,
it seems my arms and legs have liquefied

I keep on moving forward, now somehow (A parents pride planted deep inside)
At first I learned I can then found out here is how (Keep on trying, try and try)
To rise above myself and look down on here and now (Hard work today will lift me high)
One stride at a time, this is my vow

(Roll with me, run with me, by my side,
it seems my arms and legs have liquefied
Roll with me, run with me, move beyond
This is our time so keep movin on)
(Roll with me, run with me, by my side,
it seems my arms and legs have liquefied
Roll with me, run with me, move beyond
This is our time so keep movin on)

My peace is inside

Roll with me, run with me, by my side,
it seems my arms and legs have liquefied
Roll with me, run with me, by my side,
it seems my arms and legs have liquefied

I will be gracious, patriotic, smart, and will give (The more I give, the more I live)
And promise to respect the others I run with (The olive branch is effective)
Like Roosevelt, and Truman, Kennedy we do live (Greatness is contemplative)
To fight no war, no more and be persuasive

No War, No More,
No War, No More,
No War, No More,
No War, No More,

Change rollin like a river

(Roll with me, run with me, by my side,

it seems my arms and legs have liquefied
Roll with me, run with me, by my side,
it seems my arms and legs have liquefied

The message carves the stone movin down this mountainside (Roll with me run with me
by my side)

While hope is flowing toward the truth, the truth cannot hide (Roll with me run with me
by my side)

And when the rolling river finally finds the tide (Roll with me run with me by my side)
An ocean pulls it deep, deep inside

No War, No More,
No War, No More,
No War, No More,
No War, No More,
No War, No More,
No War, No More,
No War, No More,
No War, No More,

(Roll with me, run with me, by my side,
it seems my arms and legs have liquefied
Roll with me, run with me, move beyond
This is our time so keep movin on)

Pedal tone only...
My heart is a drum.....

I can see what lies ahead and I will need you some
With all the landscape moving past, soon the time will come
When we can leave behind the history we find dumb
And fight now war no more, until Kingdom Come.

(Then Faintly, and simulatneously...)

(Roll with me, run with me, by my side,
it seems my arms and legs have liquefied
Roll with me, run with me, move beyond
This is our time so keep movin on)

While singing...

No War, No More
No War, No More...etc. (fade out.)
