

ONE TIME

(Verse 1)

One time, we each are given, and the time is now
One time, so fiercely urgent, yes we can somehow
One time, once upon this time, we will find the way
One time, to gather all together, to seize this day

One time, one time, one time, one time, one time, one time, one time, one time...

(Verse 2)

One time, an American day, with a purple heart
One time, this diem we carpe, it is a brand new start
One time, to think we only, are given one short time
One time, to live our lives so fully, anything less would be a crime

So maximize this one time...

One time, one time, one time, one time, one time, one time, one time, one time...

(Verse 3)

One time, will you look in the mirror
One time, and see the rest of us here
One time, we have one time to become
One time, the most that we can become

One time, one time, one time, one time, one time, one time, one time, one time...

One time, one time, one time, one time, one time, one time, one time, one time...

Now, the sound of now...

One time, to live
One time, to give
One time, to reach
One time, to teach
One time, to try
One time, to fly
One time, to love
One time, to rise above

One time, one time, one time, one time, one time, one time, one time, one time...

(Verse 4)

One time, once upon this time, beneath the soaring sky
One time, my eyes have seen the glory, so happy I could cry

One time, I thank the Lord on high, and say a little prayer
One time, for every day gone by, and all of this we share

How many times do you get to be born?
Your mother father and a chance in a million or more

How many times will you have this day?
So smell a rose, hold a friend, and do enjoy while you may

One day the lights will go out so you better take advantage of the shining light you have
right now...
